

Negligent Drivers Face Suspension Or Revocation Of Licenses—Stroh

The Torrance Police Department, local traffic court and that they are "negligent" operators of motor vehicles, will be joined with the California Department of Motor Vehicles in a State-wide program to take immediate action against traffic violators and accident-prone drivers, according to Police Chief John H. Stroh. Careless and reckless motorists of this area, who have been cited several times during the past year face the prospect of losing their driver's privileges, it was revealed by Stroh who conferred with local police and court authorities here today.

In a state-wide drive to stop property damage, injuries and deaths, the State Department of Motor Vehicles will immediately review all citations issued during 1946. Drivers who have repeatedly broken traffic laws, will be ordered to appear before a department representative, to show cause why they should be allowed to continue to drive. This ambitious program, which will be continuous, resulted from an investigation by the State Legislative Interim Committee on Motor Vehicles Legislation whose recommendations have the wholehearted approval of Governor Earl Warren.

Thousands of drivers have forfeited bail or paid fines in the past now face suspension or revocation of their licenses. These drivers will be summoned to the state motor vehicle office nearest their homes, given hearings and then either placed on probation, have their license privileges suspended or revoked, or warned according to the severity of his record.

From now on the record of any driver involved in collisions that a normal and prudent driver could have avoided or

Vets Warned To Reinstate G.I. Term Insurance

With Feb. 1 the deadline for reinstating lapsed GI term insurance without a physical examination, James G. Caldwell, director of the local Veterans Service Center, today urged veterans to pay the required two monthly premiums through assignment of their terminal leave bonds if they don't have the necessary cash on hand.

Crowell pointed out that the bonds, by which veterans are reimbursed for the leave time they did not use while in the service, may be utilized for payments of any kind in connection with National Service Life Insurance.

Other possible uses for the bonds include conversion of term policies to permanent types of insurance, payment of premiums on insurance already in force, purchase of new insurance, and repayment of policy loans made prior to July 31, 1946.

To reinstate a lapsed term policy, the veteran is required to pay only two monthly premiums, regardless of how long the policy has been delinquent. He next to the library.
